The application has been amended as follows:

In the Specification, section titled "CROSS-REFERENCE TO RELATED APPLICATIONS", at line 2, after "filed June 5, 2000," insert:

----and now U.S. Patent Number 6,632,931,----.

The following is an examiner's statement of reasons for allowance: No prior art has been found or presented that either teaches or fairly suggests the production and use of a lignin derivative by the method comprising the step of binding an oxygen atom of the hydroxyl group and a β -positional carbon atom of a diphenylpropane unit contained in a lignophenol derivative to obtain an arylcoumaran derivative containing an arylcoumaran unit in which a coumaran skeleton is bound to an aromatic ring of the phenylpropane unit of lignin, as herein claimed. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
